EXPERIENCE

Title: **Principal Product Designer UI**
Company: Cerence Inc
Location: Burlington, MA
From: 09/2023
To: Present
Description: Lead UI design for an advanced in-car voice assistant powered by large language models. Manage and mentor a junior UI designer. Established and maintained a comprehensive design system. Conducted user research and usability testing to inform design decisions. Created high-fidelity prototypes, animations, and detailed interaction specifications. Collaborated closely with developers and stakeholders to ensure design feasibility and effective implementation.

Title: **Principal Product Designer UI**
Company: iRobot
Location: Bedford, MA
From: 05/2018
To: 02/2023
Description: Founded and managed the iRobot Mobile Design System, including documentation and governance processes. Acted as the primary design contact, holding regular office hours. Led the UI design team's weekly group and individual reviews. Collaborated with product management and stakeholders to understand requirements and ensure efficient task assignment.

Title: **Senior User Interface Designer**
Company: Curriculum Associates
From: 02/2016
To: 11//2017
Description: Led the redesign of the Diagnostic Assessment tool, a core digital product with over six thousand pages used by K-12 students. Created a responsive web application for tablets and desktops. Developed and meticulously documented the design system for development partners, ensuring high-quality implementation. Designed a simplified login experience for grades K-1. Collaborated closely with cross-functional teams to deliver new features and improvements.

Title: **Senior Interactive Designer [Contract]**
Company: Staples
From: 11/2015
To: 04//2016
